EDUCATION

SHARNBSVA UNIVERSITY
Bachelors Of
Computer Applications **(BCA)**
June (2024)
CGPA: 8.5/10

COURSEWORK

Object Oriented Programming
Artificial Intelligence
Data Structures & Algorithms
Software Engineering
DBMS & MySQL
Operating Systems
Cloud Computing

TECHNICAL SKILLS

Languages: Python, MySQL, JavaScript

Libraries & Tools: Pandas, NumPy, Pyttsx3, Git & GitHub

Databases: MySQL, AWS (basics)

Concepts: Data Analysis, Data Visualization, OOPs, Software Development Lifecycle

CERTIFICATIONS & AWARDS

- Team Applause Award, Issued by TCS -2024. View Certificate
- Infosys Springboard Ideation 2024 - View Certificate
- Generative AI by LinkedIn Learning (2024) – View Certificate
- Certified "Geo Processing using Python" — ISRO, India. View Certificate

EXPERIENCE

Tata Consultancy Services (TCS) — Analyst
Hyderabad, India | August 2024 – Present

- Analysed and managed large-scale datasets (10M+ records) ensuring accuracy, completeness, and consistency for technology projects.
- Developed automated data quality dashboards, reducing reporting time by 20% and improving error detection by 15%.
- Collaborated with cross-functional teams (software developers, QA, project managers) to deliver data-driven insights for business decisions.
- Conducted root-cause analysis of discrepancies, leading to a 30% reduction in incident recurrence.
- Prepared detailed reports for stakeholders, improving transparency and decision-making efficiency.

ACADEMIC PROJECT(S)

1. A.I VOICE ASSISTANT (Co-Pilot) Link

Python | NLP | APIs (Google Translate, YouTube, Open-Weather)

- Built an AI voice assistant capable of handling real-time queries, navigation, weather updates, and media playback.
- Integrated NLP techniques for voice recognition and response handling.
- Enhanced driver safety features through hands-free interaction and multilingual support.

2. PORTFOLIO WEBSITE Link

Technologies: HTML5 | CSS3 | JavaScript | Backend

- Designed and deployed a responsive portfolio website to showcase projects and certifications.
- Improved recruiter engagement by 30% through interactive UI and performance optimization.
