EXPERIENCE

Programmer Analyst Aug 2024 – Present
Tata Consultancy Services (TCS) *Hyderabad, India*

- **Fusion X Support:** Provided L1/L2 production support for the Fusion X platform, monitoring system health and ensuring high availability for end-users.
- **Led Root Cause Analysis** (RCA) for critical production incidents, collaborating with L3 developers to implement permanent code fixes.
- **Automation & Incident Management:** Managed critical incidents for Fusion X and developed Python scripts to automate routine health checks, reducing manual monitoring effort by 30%.
- **Stakeholder Collaboration & Documentation:** Partnered with stakeholders to gather requirements for system enhancements and authored technical workflows in Confluence to facilitate team knowledge transfer.

PROJECTS

AI-Powered Driver Safety Voice Assistant | *Python, NLP, NumPy, Open-Weather API*

- Built a voice-activated assistant using NLP to process driver commands for navigation and weather updates without manual input.
- Integrated Open-Weather API to provide real-time condition alerts, enhancing driver safety during adverse weather.

Automated Log Analysis Script | *Python, Regular Expressions (Regex)*

- Designed a standalone Python utility to scan gigabytes of server logs and extract critical error patterns (e.g., Timeouts, 500 Errors).
- Implemented automated reporting that flags recurring issues, reducing the time required for root cause analysis by 50%.

EDUCATION

SHARNBASVA UNIVERSITY June 2024
Bachelor of Computer Applications (BCA) - CGPA: 8.2/10 *Kalaburagi, India*

Relevant Coursework: Data Structures & Algorithms, Software Engineering, DBMS, Artificial Intelligence, Operating Systems, Cloud Computing

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL (MySQL)
Analysis & Tools: AWS, Google Gemini, GenAI Prompt Engineering, LLM Utilization, GitHub, Confluence
Algorithms: Data Structures, Object-Oriented Programming (OOP)

CERTIFICATIONS & AWARDS

AI Hackathon Idea Igniter (TCS, 2025): Recognized for the best AI Hackathon Idea Igniter during 2025-26
Team Applause Award (TCS, 2024): Recognized for leading cross-functional milestone deliveries.
Infosys Springboard Ideation 2024: Innovative problem-solving recognition.
